## FOREWORD

This report is one of a series of provincial reports on the results of the 1980 Census of Population and Housing conducted on May 1, 1980.

Demographic data presented herein consist of population distributions according to age, sex, marital status, highest grade completed and literacy. Other bases as gainful occupation, industry and migration are included likewise.

In the other aspect of the census, the following housing characteristics are considered: type of building, structural characteristics, floor area, type of tenure, use and source of water supply, lighting, type of toilet facilities, kind of cooking fuel used and appliances.

Subsequent issues will be the National Summary (Volume II) containing summary data on the final provincial reports and the Special Volume on National Capital Region (Metro Manila Area) which will cover data on the social, economic and demographic characteristics of the region.

Grateful acknowledgment is due the National Census Coordinating Board, government agencies, committees and the local coordinating boards for their invaluable assistance and cooperation.

TITO A. MIJARES

# Explanatory Text

## GENERAL

### INTRODUCTION

The National Census and Statistics Office conducted in May 1980, the 1980 Census of Population and Housing. This type of Census was also undertaken in May 1970. In May 1975 the Census of Population was taken as Phase I of the 1975 Integrated Census of the Population and Its Economic Activities. This nationwide undertaking was designed to obtain comprehensive data on the size, distribution, structure, change and socio-economic characteristics of the population and to take inventory of the housing accommodations, their geographic location, structural characteristics, available facilities, etc.

The population report contains data gathered from private households as well as collective households, while data on housing were collected from private households only.

It should be emphasized at this point that a complete enumeration of all households throughout the country was made but only sample household questionnaires representing 20 percent of the listed households were processed and the data published in this volume. In so doing, however, the total population count by barangay, male and female, obtained from the listing sheet taken simultaneously during the enumeration was maintained in computing the weights or expansion factors. It should also be noted that data on Tables 1 to 4 of the population tables refer to total population, that is, the population of the private households plus the collective households while Tables 5 to 10 cover exclusively the private household population.

Pursuant to the provision of Batas Pambansa Bilang 72, a final count of the population, by sex at barangay level was submitted to the President and was approved under Proclamation No. 2170 dated March 12, 1982. This report was published separately in 74 provincial volumes.

### AUTHORITY FOR THE 1980 CENSUS

Under Commonwealth Act No. 591, the National Census and Statistics Office is authorized "to prepare for and undertake all censuses of population, agriculture, industry and commerce."

It may be mentioned in this regard that sometime in February 1980 Parliamentary Bill No. 809 was presented at the Batasang Pambansa, providing for the taking of an integrated census every ten years beginning 1980, with May 1 of every censal year as the reference date. This bill was approved into Batas Pambansa Bilang 72 on June 11, 1980, more than one month after the start of enumeration.

### INTER-AGENCY PARTICIPATION

The expertise and technical advice of the National Economic and Development Authority Inter-Agency Committee on Population and Vital Statistics and its Technical Working Group on 1980 Census of Population and Housing played a vital role in the successful undertaking of the census.

The Committee's main function was to review the questionnaire, methodologies, concept, tabulation and other related aspects of the census in the production of data and development of systems that would produce more reliable and accurate result. It had for its chairman the Dean of the University of the Philippines Population Institute (UPPI) and for its members, one representative each from the Ministries of Human Settlements (MHS), National Defense (MND), Education and Culture (MEC), Health (MOH) and Local

## EXPLANATORY TEXT

Government and Community Development (MLGCD); the Commission on Population (POPCOM); National Economic and Development Authority (NEDA); and two representatives from the National Census and Statistics Office (NCSO). The Technical Working Group (TWG) for the 1980 Census of Population and Housing was headed by the Chief of the National Census and Household Surveys Department of NCSO and the members were representatives from the MHS, EPRS-NEDA, SCO-NEDA, POPCOM, UPPI, MOH, MEC, and the National Housing Authority (NHA).

Recommendations were likewise solicited from other government agencies for questions that should possibly be included in the population and housing portions in order to fill their data needs.

As early as August 1977, an NCSO Technical Committee for censuses was created. Ranking officials of the National Census and Statistics Office comprised the committee, with the Assistant Executive Director as Chairman, the Chief of the National Census and Household Surveys Department (NCHSD) as Vice-Chairman and Heads of six other departments and staff offices as members.

The committee coordinated with the Inter-Agency Committee and TWG of the NEDA on the technical aspect of the census and rendered a monthly progress report to the Executive Director. It provided the overall direction of the activities of the different subcommittees on census. The two subcommittees created, the Sub-Committee on Population and Housing Census and the Sub-Committee on Operations and Logistics Support, were directly charged with the preparatory work for the census undertaking.

### CENSUS BOARDS

A systematized involvement of government agencies and instrumentalities was made possible largely through the concerted efforts of the members of the National Census Coordinating Board (NCCB) and the Provincial, City and Municipal Census Boards. The national board was created by NEDA Memorandum Order No. 4-80, dated April, 1980 and the local boards, by Memo Order No. 5-80, dated April 1, 1980, by virtue of the powers vested in the Minister of Economic Planning under Section 3 of Presidential Decree No. 1200.

The NCCB was headed by the Minister of Economic Planning as Chairman with the Executive Director as Executive Officer. Named as members were the Ministers of Agriculture, Budget, Education and Culture, Finance, Human Settlements, Public Works, Justice, Labor, Local Government and Community Development, National Defense, Natural Resources, Public Highways, Public Information and Transportation and Communication. Rules and regulations necessary for the successful undertaking of the census were issued by the Board.

At the local government level, similar functions were carried out by the Provincial City and Municipal Census Boards. The Provincial Governor headed the Provincial Census Board while the Division Superintendent of Schools was Vice-chairman. Members were the Highway District Engineer, Provincial Auditor, Provincial Commander of the Philippine Constabulary, the Provincial Development Officer and the Provincial Agriculturist. The City Census Board was composed of the City Mayor as Chairman; City Superintendent of Schools, Vice-chairman; and the City Engineer, City Assessor and City Development Officer, members. Finally, the Municipal Census Board had for its Chairman the Municipal Mayor and ably assisted by the District Supervisor as Vice-chairman. The members were the Municipal Agriculturist, Station Commander, Municipal Treasurer and the Municipal Development Officer.

## EXPLANATORY TEXT

For each of these local census boards, the Provincial Census Officer, City Census Officer and the Municipal Census Officer were designated Executive Officer of their respective Board.

### CENSUS ORGANIZATION

The overall direction and instructions for the census undertaking emanated from the Executive Director of the National Census and Statistics Office or in his absence, the Assistant Executive Director.

Assisted by the Task Force from the Central Office and in coordination with the local census boards, the Regional Census Officers and the Provincial Census Officers directly supervised the field operations in their respective areas. The services of District Supervisors, Head Teachers and elementary school teachers from public schools were utilized as City/Municipal Census Supervisors, Team Supervisors and Enumerators in that order.

During the field operations, the 1980 Census Operations Center under the overall supervision of the National Census and Household Surveys Department Chief, was the operating body that monitored the overall operations. Lending support to the center were the Administrative and Fiscal Services Staff.

### METHOD OF ENUMERATION AND USE OF SAMPLING

The household was used as the enumeration unit and a complete listing of dwelling units, including vacant ones, was done.

A combination of complete enumeration and sampling was adopted. While all households were asked on the count of the population and housing characteristics, only twenty percent (20%) were asked on other characteristics. The selection of sample households was done systematically with a random start from a listing of households which was prepared simultaneously with the enumeration.

Using PH Form 2 (Common Private Household Questionnaire) and with an 80 percent coverage, the items asked on population were household membership, relationship to head, line number of mother, sex, date of birth, age as of last birthday and marital status. For the housing items, the type of building and the construction materials of roof and outer walls, number of rooms, floor area of the dwelling unit and the year the building was built were asked.

In addition to the population and housing items just mentioned, additional information were asked using PH Form 3 (Sample Private Household Questionnaire) from the 20 percent samples such as language or dialect generally spoken at home, citizenship, usual residence of mother at person's birth, residence of person in 1975, ability to speak Pilipino and English, school attendance, highest grade completed, literacy, economic activity of the person, place of schooling or work, fertility, nature of occupancy of the dwelling unit and housing facilities and conveniences.

Collective households were enumerated using PH Form 4, where the information asked were the same as those in PH Form 2, excluding housing items.

### PLACE WHERE ENUMERATED

All persons were enumerated in their usual place of residence, which is the geographic place (street, barangay, sitio, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he usually sleeps; therefore, it may be the same as or different from the place where he was found at the time of the census.

## EXPLANATORY TEXT

### POST ENUMERATION SURVEY

Originally the plan was to conduct a Post Enumeration Survey covering the whole country. For lack of funds the survey had to be confined to Metro Manila. Its purpose was to determine the extent of underenumeration or overenumeration in the 1980 Census of Population and Housing.

A sample of 132 barangays was selected. However, in 59 barangays which were divided into two or more enumeration areas (EAs), an enumeration area was chosen as sample.

A complete listing was made of households in the sample barangays/EAs using PH Form 1-B. Twenty percent of these households were selected as sample households and interviewed using PH Form 2, which was the same questionnaire used for non-sample households during the main enumeration. The housing portion of this form was disregarded.

### CONTENT AND COVERAGE OF THE PUBLICATION

In this publication, the population and households were described according to the respective items listed below:

Population Items	Housing Items
Age	Type of Building
Sex	Type of Occupancy
Marital Status	Construction Materials of Roof and Outer Walls
Highest Grade Completed	Year Built
Literacy	Floor Area of Dwelling Unit
Language/Dialect Spoken in the Household	Tenure of Owner-Occupant with Respect to the Land
Gainful and Non-Gainful Occupation	Kind of Lighting Facilities
Major and Minor Industry	Use and Source of Water Supply
Migration	Type of Toilet Facilities
	Kind of Cooking Fuel
	Household Appliances

The above items are presented in the ten population tables and nine housing tables of this report.

Except for figures on total population and sex, all other characteristics were based on a 20 percent sample.

Aside from these published tables, 10 other tables on the above characteristics plus 6 statistical tables dealing on ever-married women 15 years old and over are also available to statistical users.

### DEFINITION OF TERMS AND CONCEPTS

#### I – POPULATION

##### BARANGAY

A barangay is the smallest political unit in the country and generally its enumeration is

## EXPLANATORY TEXT

assigned to one enumerator. For enumeration purposes, a large barangay is usually split into parts and each part is called an enumeration area (EA).

### ENUMERATION AREA

An enumeration area (EA) is a delineated area assigned to one enumerator, usually consisting of about 300 households. A barangay or part of a barangay may have been designated as an enumeration area.

### URBAN AND RURAL AREAS

The same concepts used in the 1970 and the 1975 Censuses were followed in classifying areas as urban. According to these concepts, urbanized areas consist of:

1. In their entirety, all cities and municipalities having a population density of at least 1,000 persons per square kilometer.
2. Poblaciones or central districts of municipalities and cities which have a population density of at least 500 persons per square kilometer.
3. Poblaciones or central districts (not included in 1 and 2), regardless of the population size, which have the following:
  - a. Street pattern, i.e., network of streets in either parallel or right-angle orientation;
  - b. At least six establishments (commercial, manufacturing, recreational and/or personal services); and
  - c. At least three of the following:
    - 1) A town hall, church or chapel with religious services at least once a month;
    - 2) A public plaza, park or cemetery;
    - 3) A market place or building where trading activities are carried on at least once a week;
    - 4) A public building like a school, hospital, puericulture and health center or library.
4. Barangays having at least 1,000 inhabitants which meet the conditions set forth in 3 above, and where the occupation of the inhabitants is predominantly non-farming or fishing.

All areas not falling under any of the above classifications are considered rural.

### PERSONS ENUMERATED IN A PRIVATE HOUSEHOLD

The following were counted and enumerated as members of the household:

1. Persons whose usual place of residence is the place where the household lives and present at the time of visit of the enumerator, except those born after 12:01 A.M., May 1, 1980;
2. Persons whose usual residence is the place where the enumerated household lives, but temporarily away at the time of enumeration, such as:
  - a. persons temporarily away on vacation, business or pleasure trip or any other purpose in the Philippines who are expected to be back within six months,

## EXPLANATORY TEXT

- or within one year, if abroad;
- b. students who usually go home to their respective households at least once a week;
- c. persons working elsewhere who usually go home to their respective households at least once a week;
- d. patients confined in hospitals for not more than six months at the time of enumeration of the household, except those confined (1) as inmates (not patients in wards for temporary confinement) in tuberculosis pavilions; (2) in mental hospitals; (3) in leprosaria or leper colonies; and (4) in rehabilitation centers for drug addicts;
- e. trainees in the Armed Forces of the Philippines, if their training is not more than six months;
- f. convicts and detainees in provincial or municipal/city jails or military camps, who have been confined for not more than 6 months at the time of enumeration of the household, except those who have been sentenced for more than 6 months (including those whose sentence is on appeal), even though just confined; and
- g. officers and crew members of coastal, interisland, or fishing vessels; officers and crew members of ocean-going vessels who usually go home to their household at least once a year.

- 3. Boarders of the household who are working, looking for work or studying, and who do not go home at least once a week;
- 4. Employees of household-operated enterprises who eat and sleep with the household and who do not go home at least once a week;
- 5. Persons (other than those in "3" and "4") whose usual place of residence is elsewhere, but who have been away from their usual place of residence for more than 6 months;
- 6. Members of the Armed Forces of the Philippines including draftees, sleeping most of the nights with the household, except those who only board or lodge with the household and who usually go home at least once a week; in such a case, they will be enumerated in their own household;
- 7. Persons found in the household who have no usual place of residence elsewhere;
- 8. Persons found in the household who are not certain of being enumerated elsewhere;
- 9. Persons who consider the dwelling unit of the household as their usual place of residence but are living within the premises of a foreign embassy, ministry, legation or consulate, including non-Filipino employees who have been residents of the Philippines before such employment;
- 10. Citizens of foreign countries and Filipinos (balikbayan) who have resided or expect to reside in the Philippines for more than one year from arrival;
- 11. Persons who sleep in the same dwelling unit but may not be able to take all or some of their meals with the household because of the nature of their work or other similar reason (they take their meals at place of work, etc.), should be considered as part of the household; and
- 12. A household member who is alive as of 12:01 A.M., May 1, 1980, but dies prior to the enumeration of the household.

## EXPLANATORY TEXT

### PERSONS TOTALLY EXCLUDED FROM THE ENUMERATION

Totally excluded from the population count of the Philippines were:

1. Foreign ambassadors, ministers, consuls or other diplomatic representatives, and members of their households (except Filipino employees and non-Filipino employees who had been residents of the Philippines prior to said employment);
2. Citizens of foreign countries living within the premises of an embassy, legation, chancellory or consulate;
3. Officers and enlisted men of U.S. Military or Naval Forces and non-Filipino members of their households, irrespective of residence; foreigners who are civilian employees in U.S. military or naval stations and member of their families living within the premises of said stations or reservation; (Note: for foreigners who are civilian employees of said stations living outside the station or reservation, see Item 5).
4. Citizens of foreign countries who are Chiefs and officials of international organizations like UN, ILO or USAID, who are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families;
5. Citizens of foreign countries together with non-Filipino members of their families, who are students or who are employed, or have business in the Philippines and have been in the Philippines or expect to stay in the country for one year or less from arrival;
6. Citizens of foreign countries and Filipinos with usual place of residence in a foreign country, who are visiting in the Philippines and expect to stay in the country for one year or less from arrival (e.g. a *balikbayan* who will return to his usual place of residence abroad after a short vacation or visit in the Philippines);
7. Citizens of foreign countries in refugee camps/vessels; and
8. Residents of the Philippines on vacation, pleasure or business trip, etc. abroad, who have been away or expected to be away from the Philippines for more than one year from departure.

### USUAL PLACE OF RESIDENCE

The term refers to the geographic place (street, sitio, barrio/barangay, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he sleeps most of the time; hence, it may be the same as or different from the place where he was found at the time of the census.

### HOUSEHOLD

A household usually consists of a group of persons who sleep in the same dwelling unit and have common arrangements for the preparation and consumption of food. A person who lives alone is considered as one separate household. Although in most cases a household consists of a related family group, some household members may have no relationship to the central group. Boarders and servants, for instance are counted as part of a particular household if they take their meals with the household and sleep in the same dwelling unit. Persons who sleep with a household but individually cook their meals or eat elsewhere are each considered as single-person household.

## EXPLANATORY TEXT

Three generations may be living in one dwelling unit. If they are divided into two or more groups whose eating arrangements are independent from each other, each group is counted as a separate household.

### PERSONS NOT LIVING IN HOUSEHOLD

Falling under this category are persons living in collective living quarters such as welfare institutions (orphanages and homes for the aged or infirm); penal and corrective institutions (jails, national penitentiary, and reformatory institutions); hospitals, sanatoria, leprosaria, and nurses homes; dormitories and boarding schools; lodging houses such as hotels, tourist homes and the like; military camps and others.

Most of these institutions house inmates for whom care or custody is provided by resident staff members, or persons residing in group quarters or in housing units on the institutional grounds.

Private families living within such institutions, however, are excluded from the classification, as well as persons (employees, students, etc.) who go home to their families on weekends or days off. Persons found in lodging houses, but who are on vacation or business trips and whose absence from home does not exceed six months on the day of enumeration, are likewise not counted as part of the institutional population.

### RESPONDENT

A respondent is any responsible adult member of the household who furnished the information or answers to questions during the interview.

### LANGUAGE/DIALECT GENERALLY SPOKEN IN THE HOUSEHOLD

This refers to the language or dialect spoken most of the time by members of the household. In cases where two or more languages/dialects are spoken by household members, the one most often used in conversations among members of the family of the head when most of them are gathered together is considered as the language/dialect generally spoken in the household.

### HEAD OF HOUSEHOLD

The person responsible for the care and organization of the household is generally considered as the head of the household. He usually provides the chief source of income for the household.

In the case of a household consisting of two or more unrelated persons sharing a dwelling unit and sharing the same cooking facilities and meals, the head is usually the eldest male or female in the group regarded as such by the other members.

### RELATIONSHIP TO HEAD OF HOUSEHOLD

This determines how each household member is related to the head, who is usually the husband or father, although in his absence or if incapacitated, the wife may be designated as head.

1. Spouse – a woman/man married to and living with the head. This includes legal marriages as well as common-law relationships.
2. Son/daughter – the head's own child, stepchild, or adopted child.

## EXPLANATORY TEXT

3. Son-in-law/daughter-in-law – refers to a household member related to the head by marriage to his daughter or son.
4. Grandson/granddaughter – child of the son or daughter of the head.
5. Other relative – a household member related to the head by blood, marriage, or adoption. Father, mother, aunts, nephews, parents-in-law and cousins are examples.
6. Others – any person in the household who is usually a non-relative of the head. Boarders and servants fall under this category. Certain members of the household who are related to the head by blood or affinity, but are actually boarders or servants in the household, are classified under “Others”.

For collective households and group quarters, the question on relationship refers to the person's relationship to the institution or establishment, and not to the person recorded as head.

### AGE AND DATE OF BIRTH

Data on the age of the population were obtained by asking the respondent the month and year of birth and the age itself of the household member before May 1, 1980. To ensure accuracy, a conversion table on age before May 1, 1980 was prepared for the use of enumerators, editors/coders and verifiers.

### MARITAL STATUS

This refers to the civil status of all persons 10 years old and over. A person in this age group is classified as single, married, widowed, separated or divorced, or civil status unknown, based on the following definitions:

- a. Single – If never been married.
- b. Married – Legally married or living consensually with husband/wife without benefit of a legal marriage. A person classified as “married” includes one who remarried after having been widowed, separated or divorced or one temporarily separated from spouse owing to the nature of work, illness or service in the Armed Forces.
- c. Widowed – A person whose spouse died and who has not remarried at the time of enumeration.
- d. Separated – If permanently separated from spouse either legally or otherwise, due to marital discord.
- e. Divorced – If bond of matrimony has been dissolved through a court decree and is therefore free to remarry.
- f. Unknown – If civil or marital status is either not known to the respondent, or the respondent himself refuses to reveal the marital status of such person.

### CITIZENSHIP

Citizenship is defined as the legal nationality of a person. A citizen is a legal national of the country of the census; an alien is a non-national of the country.

### LITERACY

A person is considered literate if he is able to read and write a simple message in any language or dialect.

## EXPLANATORY TEXT

### HIGHEST GRADE COMPLETED

This has reference to the specific grade or year completed in elementary school, high school, college or university, by persons 7 years of age and over. Academic degree holders are classified according to the title of the degree received or the major field of study undertaken.

### USUAL OCCUPATION

This refers to the specific job or kind of work that a person, who works most of the year, is usually pursuing, or if unemployed at the time of enumeration, it is the kind of work he used to do most of the year. A person is considered as usually working most of the year if he works for at least 10 hours a week for 26 weeks either for pay in cash or in kind, for a fee or profit in own farm, business or establishment or practice of a profession and without pay on family farm or enterprise. This particular group of workers is referred to as gainful workers.

For persons who do not work most of the year, the usual occupation relates to the non-gainful activities they usually do most of the year. Among such persons are housekeepers, students, pensioners, retired and disabled. However, a person who is housekeeping or schooling and also works in a gainful activity was reported as gainfully employed, even if more time was spent housekeeping or studying, as the case may be.

### INDUSTRY

Industry refers to the specific character and nature of business or industry or the place where the work is being performed in connection with the job or occupation reported for a person.

### EVER-MARRIED WOMAN

This refers to a woman who has already entered married life. Marriage here may either be legal or consensual union. At the time of enumeration the ever-married woman may still be married, or already widowed, separated or divorced.

## II – HOUSING

### BUILDING

A building is any independent free-standing structure comprising one or more rooms or other spaces, covered by a roof and enclosed within external walls or dividing walls with adjacent building which usually extend from the foundation to the roof. It usually contains one or more rooms internally connected with one another. A building therefore, is any structure intended for dwelling, storage, factory, shelter or for some other useful purposes.

For purposes of the 1980 Census of Population and Housing, only the following buildings were listed and assigned building serial numbers:

- a. A house or any kind of building or shelter where people were actually living;
- b. A residential building (house, apartment or accesoria, condominium) that was vacant;

## EXPLANATORY TEXT

- c. Hotel, motel, lodging house, dormitory or camp (construction, logging, mining, etc.) in operation;
- d. A commercial, office, industrial, agricultural or other kinds of buildings with one or more dwelling units (containing a kitchen/kitchen-dining room, living room and a bedroom, and with separate entrance) which were all vacant.

The different types of buildings are:

- 1. Single house – a complete structure intended for one household. It includes the so-called “nipa hut” or a small house that is built as a more or less permanent dwelling unit.

- 2. Duplex – a structure intended for two households, with complete living facilities for each. It is divided either vertically or horizontally into two separate dwelling units which are usually identical.

- 3. Apartment/accesoria/condominium/row house

An apartment is a structure usually of several stories, made up of three or more independent entrances from internal halls or courts. It differs from an accesoria in that an apartment has one common entrance from the outside.

An accesoria is usually a one or two-floor structure divided into three or more dwelling units, each dwelling unit having its own separate entrance from the outside. Another name for accesoria is row house.

A condominium is usually a high-rise building where the dwelling units are owned individually but the land and other areas and facilities are owned in common.

- 4. Improvised (barong-barong) – a makeshift or roughly constructed house usually built with salvaged materials.

- 5. Commercial/industrial/agricultural – buildings not intended for human habitation but used as dwelling units at the time of the census.

Commercial – a building used for transacting business or rendering professional services, such as a storage or an office building.

Industrial – a building used for processing, assembling, fabricating, finishing, manufacturing or packaging operations, such as a factory or a plant.

Agricultural – any structure used for agricultural purposes, such as a barn, warehouse, rice mill, etc.

- 6. Other housing unit (natural shelter, boat, etc.)

This refers to living quarters which are not intended for human habitation nor located in permanent buildings but which are, nevertheless, used as living quarters at the time of the census. Caves, other natural shelters and mobile housing units such as trailer, barge, boat, etc., fall within this category.

- 7. Hotel, lodging house, dormitory, etc. – This group comprises permanent structures which provide lodging and/or meals on fee basis. Hotels, motels, inns, boarding houses, dormitories, pensions and lodging houses fall within this category.

- 8. Institutional (hospital/convent/school dormitory/penal institution, etc.) – a building intended for persons confined to receive medical, charitable, or other care treatment such as jails and penal colonies, and other buildings like convents, school dormitories, etc.

- 9. Other collective living quarters – any structure or shelter which does not fall under items 7 and 8. Included in this category are camps which are defined sets of

## EXPLANATORY TEXT

premises originally intended for the temporary accommodation of persons with common activities or interests like military camps, and other camps established for the housing of workers in mining, agriculture, public works or other types of enterprises.

### DWELLING UNIT

A dwelling unit is a separate and independent place of abode intended for habitation by one household, or one not intended for habitation but occupied as living quarters by a household at the time of the census.

Dwelling units counted included those that are occupied and those that are unoccupied.

### CONSTRUCTION MATERIALS OF ROOF

The kinds of materials used are as follows:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Asbestos
4. Cogon/nipa
5. Makeshift/salvaged materials
6. Others (anahaw, etc.)

### CONSTRUCTION MATERIALS OF OUTER WALLS

The kinds of materials may be any of the following:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Wood/plywood
4. Mixed tile/concrete/brick/stone and wood/plywood
5. Asbestos
6. Bamboo/sawali
7. Cogon/nipa
8. Makeshift/salvaged materials
9. Others (anahaw, etc.)

If the roof or outer walls are constructed of two or more materials the material most used was reported.

### YEAR BUILDING WAS BUILT

This refers to the year when the extent of construction permitted occupancy for living purposes. The year reported was the particular year when the occupancy started or when the building was fit for occupancy even if not occupied.

### NUMBER OF ROOMS IN THE DWELLING UNIT

A room is defined as a space in a dwelling unit or other living quarters enclosed by walls reaching from the floor to the ceiling or roof covering, or at least to a height of 1.8 meters which are of permanent or semi-permanent structure, of a size large enough to hold a bed for an adult or at least has an area of 3 square meters.

## **EXPLANATORY TEXT**

The total number of rooms reported included the bedrooms, dining room, living room, kitchen, roofed veranda, library or music room and other separate spaces used or intended for dwelling purposes, as long as they meet the criteria of walls and floor space. Passageways, lobbies, bathrooms and toilets or rooms used exclusively as store/shop/clinic/grains storage (nobody sleeps therein) were not counted as rooms even if they meet the criteria.

### **FLOOR AREA OF DWELLING UNIT**

This refers to the space enclosed by the exterior walls of the dwelling unit, or the space measured inside the outer walls of the spaces that are counted as rooms. In case of several floors, the area of each floor in square meters was taken and added together to get the total floor area of the dwelling unit. Areas of floor spaces that are not considered rooms such as bathroom, toilet, storeroom, passageway were excluded in determining the floor area.

POPULATION DENSITY OF  
OCCIDENTAL MINDORO PROVINCE  
BY MUNICIPALITY : 1980

## **Occidental Mindoro: A Brief Analysis**

When the former province of Mindoro was subdivided on June 13, 1950 by virtue of Republic Act. No. 505 two new provinces were created, one of which was Occidental Mindoro. The province occupies the western portion while its sister province, Oriental Mindoro, occupies the eastern part. It has an area of 5,879.8 square kilometers, representing 2.0 percent of the total land area of the Philippines. Elongated plateaus with rolling grasslands, intermittent valleys and mountain ranges characterize the provincial terrain. The entire coast of the province boasts of a rich fishing ground, but its main asset is its broad stretch of fertile land.

Eleven municipalities compose the province with Mamburao as the capital.

### **POPULATION**

Occidental Mindoro had a total population of 222,431 as of May 1, 1981. The total population, as in 1975, had more males (115,984) than females (106,447). Within five years, its population grew by 36,644 or 19.72 percent, one of the tremendous increases posted by any province towards the close of the decade. During the period from 1975 to 1980, the population grew annually at the average rate of 3.67 percent, 1.55 percentage points lower than its 1970-1975 rate of 5.22 percent. Despite Occidental Mindoro's high growth rate, the increase in the population density during the past five years was only 6.2 persons or from 31.6 to 37.8 persons per square kilometer.

Urban dwellers (36,546) were only one-fifth as numerous as rural residents (185,885). As shown in Table A, urban and rural population remained essentially constant during the last two censal years. Losing during the 1970-1975 intercensal period was the proportion of urban residents, from 24.11 to 16.61 percent. On the other hand, the proportion of rural dwellers rose from 75.89 to 83.39 percent. For the 1975-1980 intercensal period, the proportions of urban and rural dwellers were equally altered, although the former was a 0.18 percentage-point decrease and the latter, an increase of the same value.

There was only a minor change in the sex ratio over the past five years, from 110.22 to 108.96. Males were predominant in the urban and rural areas during the past decade. Urban sex ratio was observed at 101.83 percent in 1970; 104.10 percent, 1975 and 103.04 percent, 1980. In the rural areas, the sex ratio was recorded at 107.74 percent in 1970; 111.48 percent, 1975 and 110.16 percent, 1980.

## A BRIEF ANALYSIS

**TABLE A – URBAN-RURAL POPULATION BY SEX,  
OCCIDENTAL MINDORO: 1970, 1975 AND 1980**

Area Classification and Sex	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	222,431	100.00	185,787	100.00	144,032	100.00
Male	115,984	52.14	97,410	52.43	74,211	51.52
Female	106,447	47.86	88,377	47.57	69,821	48.48
Urban	36,546	16.43	30,866	16.61	34,721	24.11
Male	18,547	8.34	15,743	8.47	17,518	12.16
Female	17,999	8.09	15,123	8.14	17,203	11.95
Rural	185,885	83.57	154,921	83.39	109,311	75.89
Male	97,437	43.80	81,667	43.96	56,693	39.36
Female	88,448	39.77	73,254	39.43	52,618	36.53

## A BRIEF ANALYSIS

Figure 1 presents the age-sex composition of the urban and rural population. Each bar in the diagram represents the proportion of males or females, urban or rural, in five-year age groups to the total population. The bars corresponding to the rural males and females continuously shorten as the age groups become older. In effect, the rural population exhibits a pyramid structure with the children under 5 years providing the base and the adults 80 years and above forming the apex. In contrast, the urban population shows irregularities in its pyramid structure, specifically, the urban females. The bars corresponding to age groups 10-14 years, 40-44 years and 60-64 are respectively longer than for age groups 5-9 years, 35-39 years and 55-59 years.

### AGE COMPOSITION

More than two-fifths (45.61%) of the total population are 0-14 years of age; 51.94 percent, 15-64 years and 2.45 percent, at least 65 years. Although not differing much from the previous ones, the proportions of the younger (0-14 years), the productive (15-64 years), and the older age groups show different trends (Table B). The first demonstrated a downward trend; from 47.07 percent in 1970, it decreased to 46.40 percent in 1975 and further decreased to 45.61 percent in 1980. The second followed an upward trend; from 50.59 percent in 1970, it increased by 0.78 percentage point in 1975 and then upped by 0.57 percentage point in 1980. For the third, a downward-upward trend was shown from 2.34 percent in 1970 going down to 2.23 percent in 1975 and then going up to 2.45 percent in 1980. Consequently, the median age of the population is 16 years.

TABLE B – AGE COMPOSITION OF THE POPULATION,  
OCCIDENTAL MINDORO: 1970, 1975 AND 1980

Age Composition	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>222,431</u>	<u>100.00</u>	<u>185,787</u>	<u>100.00</u>	<u>144,032</u>	<u>100.00</u>
0 – 14 years	101,452	45.61	86,213	46.40	67,798	47.07
15 – 64 years	115,525	51.94	95,441	51.37	72,859	50.59
65 years and over	5,454	2.45	4,133	2.23	3,375	2.34

More than two-fifths (41.00%) of all urban residents are 0-14 years; 55.34 percent, 15-64 years and 3.66 percent, 65 years and over. The corresponding proportions for the rural population are 46.52 percent, 51.27 percent and 2.21 percent.

The dependency ratio (number of dependents for every 100 persons in the productive age group) had a decrease of 2.12 or from 94.66 in 1975 to 92.54 in 1980. Urban dependency ratio was markedly lower than that of the rural population, 80.70 for the former and 95.05 for the latter.

## A BRIEF ANALYSIS

### MARITAL STATUS

As in 1970 and 1975, the population 10 years of age and older were mostly married persons accounting for 53.38 percent. This proportion increased since 1975 following the same trend from 1970 to 1975. Constituting 42.50 percent, those never married registered a proportion 3.07 percentage points below the 1970 level. After decreasing in 1970-1975, the proportions of widowed and divorced or separated hiked in 1975-1980 to 3.55 and 0.49 percent, respectively. Only 0.08 percent did not disclose their marital status.

The contrast between single and married persons was more pronounced among females. While the married made up 55.56 percent, those never married comprised 38.68 percent of the females. With regard to the males, there were more married (51.39%) than single individuals (45.99%). Barely 2.23 percent among the males were widowed and 0.34 percent, divorced or separated. The corresponding proportions for the females, 5.01 and 0.65 percent, were clearly higher.

**TABLE C – POPULATION 10 YEARS OLD AND OVER  
BY SEX AND MARITAL STATUS, OCCIDENTAL MINDORO:  
1970, 1975 AND 1980**

Sex and Marital Status	1980		1975		1970

## A BRIEF ANALYSIS

### HIGHEST GRADE COMPLETED

The proportion of the total private household population at least 7 years old who had not completed any grade dropped over the past five years from 17.76 to 11.55 percent. Persons who completed the elementary level were the most numerous. Their proportion increased from 59.52 to 62.62 percent over the past five years. The proportion who had attained high school posted an increase, from 14.91 to 17.48 percent. So did the proportion of those who had attained college – from 3.66 to 5.46 percent – and that of degree holders, from 1.80 to 2.64 percent. A small 0.25 percent in 1980 did not give their educational attainment.

Table D shows the distribution by highest grade completed of the private household population 7 years old and over in 1975 and 1980.

## A BRIEF ANALYSIS

**TABLE D – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER  
BY HIGHEST GRADE COMPLETED, OCCIDENTAL MINDORO:  
1975 AND 1980**

Highest Grade Completed	1980		1975	
	Number	Percent	Number	Percent
Total	<u>167,297</u>	<u>100.00</u>	<u>141,339</u>	<u>100.00</u>
No grade completed	19,325	11.55	25,108	17.76
Elementary	104,768	62.62	84,130	59.52
High school	29,244	17.48	21,071	14.91
College	9,132	5.46	5,166	3.66
Academic degree holder	4,419	2.64	2,542	1.80
Not stated	409	0.25	3,322	2.35

## A BRIEF ANALYSIS

Of those who were elementary educated about 34.11 percent went through the first to third grades, followed by persons who had completed sixth and seventh grades (33.84%). Those who reached fourth grade and fifth grade made up 18.29 and 13.76 percent, respectively. Persons who finished first to third year comprised more than three-fifths (65.75%) of those who had attained high school education while secondary school graduates totalled 34.25 percent. Approximately 84.98 percent of the college undergraduates attended first to third year; only 15.02 percent went through fourth year or higher.

### LITERACY

The literacy rate for the private household population 10 years old and over was 80.61 percent. The urban and rural rates differed markedly – 91.62 percent and 78.24 percent, respectively.

Overall, females outstripped the males in literacy rate, 81.27 percent against 80.00 percent. Around 91.81 percent of the urban females were literate compared with 91.42 percent of the urban males. For rural areas, 78.91 percent of the females and 77.64 percent of the males were literate (Table 6).

## A BRIEF ANALYSIS

### LANGUAGE OR DIALECT

Occidental Mindoro has a long list of diverse languages and dialects but Tagalog remains to be the most commonly used by members of majority of the households (67.17%) followed by Ilocano with 11.75 percent and Hiligaynon (Ilongo) with 8.66 percent. Rounding out the top five dialects are Mangyan (4.08%) and Hamtikanon (2.17%).

In the urban areas, almost all households (90.99%) speak Tagalog followed by Ilocano with 3.16 percent and Hamtikanon, 1.53 percent. In the rural areas, Tagalog is also the most popular, spoken by 62.43 percent of all households; Ilocano comes next at 13.46 percent and Hiligaynon (Ilongo) follows closely at 10.18 percent.

### GAINFUL OCCUPATION

A total of 60,299 were gainful workers 15 years of age and older, while in 1970 and 1975 these were posted at 44,690 and 54,459, respectively. Men account for more than four-fifths of the total gainful employment (85.19%) while only 14.81 percent are women.

## A BRIEF ANALYSIS

Agricultural, animal husbandry and forestry workers, fishermen and hunters are by far the largest major occupation group (72.19%) in 1980. Professional, technical and related workers have increased over the 1975-1980 period at a rate faster than all the rest, from 3.71 percent in 1975 to 5.06 percent in 1980, recovering from a 1.70 percentage-point decrease between 1970-1975. Every group has its own trend from 1970-1980. Administrative, executive and managerial workers constitute 0.38 percent in 1980, 0.62 percent in 1975 and 0.53 percent in 1970. Clerical and related workers made a steady rise, from 1.70 percent in 1970 to 2.01 percent in 1975 and then rose to 2.70 percent in 1980. Sales workers comprise 4.10 percent of the total gainful workers, a little less than in 1975 (4.18%), whereas 4.88 percent comprised this group in 1970. From 1975 to 1980, service workers increased by 1.32 percentage points, from 3.55 to 4.87 percent. Production and related workers, transport equipment operators and laborers registered a downward trend, 16.83 percent in 1970 to 12.36 percent in 1975 and finally dropped to a low 10.08 percent in 1980. Merely 0.62 percent are workers with unclassifiable occupation.

The breakdown of all gainful workers at least 15 years old by major occupation group since 1970 is presented below:

**TABLE E – GAINFUL WORKERS 15 YEARS OLD AND OVER  
BY MAJOR OCCUPATION GROUP, OCCIDENTAL MINDORO:  
1970, 1975 AND 1980**

Major Occupation Group	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>60,299</u>	<u>100.00</u>	<u>54,459</u>	<u>100.00</u>	<u>44,690</u>	<u>100.00</u>
Professional, technical and related workers	3,055	5.06	2,023	3.71	2,418	5.41
Administrative, executive and managerial workers	227	0.38	335	0.62	236	0.53
Clerical and related workers	1,627	2.70	1,094	2.01	760	1.70
Sales workers	2,473	4.10	2,277	4.18	2,181	4.88
Service workers	2,938	4.87	1,933	3.55	1,971	4.41
Agricultural, animal husbandry and forestry workers, fishermen and hunters	43,530	72.19	39,760	73.01	29,387	65.76
Production and related work- ers, transport equipment operators and laborers	6,077	10.08	6,729	12.36	7,523	16.83
Workers not classifiable by occupation	372	0.62	308	0.56	214	0.48

## A BRIEF ANALYSIS

### INDUSTRY

Agriculture, fishery and forestry workers contribute 73.04 percent of all gainful workers. The remaining less than thirty percent are distributed as follows: community, social and personal services, 11.85 percent; wholesale and retail trade, 4.21 percent; transportation, storage and communication, 3.67 percent; construction, 2.89 percent; manufacturing, 2.62 percent; financing, insurance, real estate and business services, 0.98 percent; mining and quarrying, 0.32 percent; electricity, gas and water, 0.19 percent; and 0.23 percent, workers with activities not adequately defined.

Majority of all workers under agriculture, fishery and forestry are agricultural crop producers (86.89%). Workers under community, social and personal services tend to concentrate in three fields: personal and household services (31.08%), education services (28.47%) and public administration and defense (26.81%).

## A BRIEF ANALYSIS

### MIGRATION

Majority of the males (94.31%) and females (94.74%) 5 years of age and older lived in the same municipality where they had resided on May 1, 1975.

Not only were the proportions of males and females who had a different place of residence in 1975 almost equal, but their distribution by previous residence were also almost equal. Of the males, 3.26 percent earlier lived in another province; 2.35 percent, in another municipality of Occidental Mindoro and 0.08 percent, in a foreign country. The corresponding proportions for females were 2.84 percent, 2.33 percent and 0.09 percent.

### TYPE OF BUILDING

A large majority of the 40,627 households in Occidental Mindoro (96.89%) occupy single houses, distantly followed by improvised structures such as barong-barong (1.38%) and duplex (0.60%). A small 0.50 percent are housed in apartment/accesoria/condominium/row house/etc.; 0.54 percent, in commercial/industrial/agricultural types of buildings and 0.09 percent, in buildings of other types. The proportion of households in the urban areas sheltered in single houses (94.95%) is slightly less than in the rural areas (97.28%). Only 2.15 and 1.39 percent among urban households occupy commercial/industrial/agricultural buildings and apartment/accesoria/condominium/row house/etc., respectively, while its rural counterpart has 0.22 and 0.31 percent for each. Less than one percent in the urban areas (0.90%) and rural areas (0.54%) live in duplex structures.

**TABLE F – NUMBER OF HOUSEHOLDS IN OCCUPIED DWELLING UNITS  
BY TYPE OF BUILDING, OCCIDENTAL MINDORO:  
1970 AND 1980**

Type of Building	1980		1970	
	Number	Percent	Number	Percent
Total	<u>40,627</u>	<u>100.00</u>	<u>25,286</u>	<u>100.00</u>
Single house	39,365	96.89	24,179	95.62
Duplex	243	0.60	240	0.95
Apartment/accesoria/condominium/row house/etc.	199	0.50	81	0.32
Improvised (barong-barong)	560	1.38	540	2.14
Commercial/industrial/agricultural	220	0.54	241	0.95
Other housing unit: natural shelter, boat, etc.	25	0.06	–	–
Hotel, lodging house, dormitory, etc.	10	0.02	–	–
Institutional (hospital, convent, school dormitory, etc.)	–	–	5	0.02
Other collective living quarters (military camp, etc.)	5	0.01	–	–

## A BRIEF ANALYSIS

### TYPE OF OCCUPANCY

Almost nine out of ten households own the dwelling units they occupy (86.92%) while others are free-renters (6.47%), tenants/lessees (6.10%) and subtenants/sublessees (0.51%).

A little over four-fifths (81.05%) of urban households are unit owners; 10.24 percent, free-renters; 7.91 percent, tenants/lessees and 0.80 percent, subtenants/sublessees. The corresponding proportions for rural households are: 88.09 percent, unit owners; 5.71 percent, free-renters; 5.74 percent, tenants/lessees; 0.46 percent, subtenants/sublessees.

### CONSTRUCTION MATERIALS OF ROOF AND OUTER WALLS

Cogon/nipa, the most commonly used roof material in both urban and rural areas, covers dwelling units sheltering 68.97 percent of all households; galvanized iron/aluminum, 28.32 percent; asbestos, 0.49 percent; tile/concrete/brick/stone, 0.39 percent; makeshift/salvaged materials, 0.39 percent and other materials such as anahaw, 1.44 percent. More than half (51.13%) of the urban households live in units with galvanized iron/aluminum roofs, far larger than the 23.78 percent in the rural areas where cogon/nipa covers dwelling units of almost three-fourths (73.10%) of the households.

More than one-third (36.01%) of all households stay in units with exterior walls of strong materials such as galvanized iron/aluminium (0.98%), wood/plywood (17.74%), mixed tile/concrete/brick/stone and wood/plywood (11.53%), tile/concrete/brick/stone (5.66%), and asbestos (0.10%), while majority of the households (63.99%) occupy units with outer walls made of cogon/nipa (40.34%), bamboo/sawali (15.61%), makeshift/salvaged materials (0.61%) and others like anahaw (7.43%). Among the urban households, outer walls of strong materials (65.01%) are more popular while among the rural folks, light materials (69.77%) are used.

### YEAR BUILT

About three-fourths (74.00%) of all households occupy buildings erected within the last ten years, 1971-1980; 16.61 percent, 1961-1970; 5.50 percent, 1951-1960; 2.19 percent, 1942-1950 and 1.70 percent, 1941 or earlier.

In the urban areas, 52.74 percent live in structures built in 1971-1980; 25.40 percent, 1961-1970; 11.57 percent, 1951-1960; 5.22 percent, 1942-1950 and 5.07 percent, 1941 or earlier. The figures for the rural areas are: 78.24 percent, 1971-1980; 14.86 percent, 1961-1970; 4.29 percent, 1951-1960; 1.58 percent, 1942-1950 and 1.03 percent, 1941 or earlier. Significant differences in the proportions of households by year built between the urban and rural areas are noted in 1961-1970 and 1971-1980 built structures.

### FLOOR AREA OF DWELLING UNIT

More than two-thirds (69.20%) of all households occupy dwelling units having a floor area of less than 30 square meters; 22.82 percent, 30-49 square meters; 4.25 percent, 50-69 square meters; 1.98 percent, 70-99 square meters and 1.75 percent, 100 square meters and over.

There is a marked difference between the urban and rural areas in the distribution of households by floor area of their dwelling units. Of the total urban households, 51.82 percent live in units less than 30 square meters; 32.82 percent, 30-49 square meters; 6.97 percent, 50-69 square meters; 4.05 percent, 70-99 square meters and 4.34 percent, 100 square

## A BRIEF ANALYSIS

meters or more. The proportions for rural households are: 72.66 percent, less than 30 square meters; 20.83 percent, 30-49 square meters; 3.71 percent, 50-69 square meters; 1.57 percent, 70-99 square meters; 1.23 percent, 100 square meters and over.

### TENURE OF OWNER-OCCUPANT WITH RESPECT TO THE LAND

Of all households occupying their dwelling units as owners, 63.57 percent also own the land occupied by their abodes; 6.12 percent are either lessees or sublessees and 9.53 percent are either farm lessees or agricultural tenants of landowners. Those enjoying other legal tenure constitute 4.97 percent and those without tenure like squatters, 15.81 percent. The rate of lot ownership reached 84.48 percent in the urban areas, far more than the 59.74 percent in the rural areas. Only 3.84 percent have no tenure at all in the former, compared to 18.01 percent in the latter.

### SOURCE AND USE OF WATER SUPPLY

The tubed/piped shallow well supplies far more households than the other sources of water combined for each of all three uses of water considered in the 1980 census namely: drinking, kitchen use and laundry. It provides drinking water to 45.10 percent of all households, kitchen-use water to 44.93 percent and laundry water to 44.03 percent. A substantial number of households depend on tubed/piped deep well; 17.12 percent, 16.59 percent and 15.78 percent for drinking, kitchen use and laundry, in that order. Dug well furnishes more households with laundry and kitchen-use water, 15.14 and 16.55 percent, respectively, than with drinking water (14.75%). Faucet, community water system is used by a moderate number of households: 9.82 percent, for drinking use; 9.07 and 8.87 percent, for kitchen and washing clothes, respectively. Spring provides 7.37 percent of the total households with water for drinking; 6.71 percent, for kitchen use and 6.59 percent, for laundry use. Rain furnishes an equal 0.14 percent of all households with drinking, kitchen use and laundry water. Lake, river, stream, irrigation and the like are relied on primarily for laundry (9.45%), rather than for drinking (5.70%) and kitchen utility (6.01%).

### KIND OF LIGHTING FACILITIES

Kerosene illuminates the abodes of nearly three-fourths (72.56%) of all households; electricity, 16.88 percent and liquefied petroleum gas (LPG), 4.77 percent. Only a handful use oil (0.24%) while 5.55 percent use other kinds. Although kerosene (57.53%) is the most common lighting facility in the urban areas, still, a substantial number (37.62%) depend on electricity. A fractional part (0.15%) resort to other kinds of lighting facilities such as candle or wax. In the rural areas, kerosene is also the most commonly used lighting facility among the households (75.55%). Very few depend on electricity (12.74%) and other kinds such as candle or wax (6.62%).

### COOKING FUEL

Almost nine out of ten (88.26%) households cook with wood or charcoal; 6.81 percent, kerosene; 3.10 percent, liquefied petroleum gas (LPG); 0.76 percent, electricity and 1.07 percent, other fuel. The proportion of rural households using wood or charcoal (89.77%) is greater than that of urban households (80.71%). Kerosene is used by 10.09 percent of the urban households and by 6.15 percent of rural households. Few are users of LPG; 7.54 percent of urban households and only 2.21 percent of the rural households.

## A BRIEF ANALYSIS

### TOILET FACILITIES

More than one-third (38.49%) of all households have water-sealed toilets. According to toilet's depository use, whether exclusive for one household or shared by two or more, the percentages are distributed as follows: 16.50 percent, sewer/septic tank and exclusive; 3.17 percent, sewer/septic tank but shared; 13.60 percent, other depository and exclusive and 5.22 percent, other depository and shared. More than one-fourth (29.26%) of all households use the closed pit (13.83%) and the open pit (15.43%). Other types of toilet facilities such as the pail system are availed of by 1.28 percent. With 30.97 percent of the total households having no toilet facilities, sanitation is indeed a deplorable condition in the province especially in the rural areas where more than one-third (34.99%) have none. Although lower in proportion (10.82%), the urban folks are also plagued by the same problem. The proportion of urban households (63.80%) using the water-sealed toilet nearly doubles that of the rural households (33.45%). The closed pit is more popular with the urban households (15.85%) than with the rural ones (13.42%) while the open pit is more common among the latter (17.07%) than among the former (7.22%).

### OWNERSHIP OF RADIO, TELEVISION SET AND REFRIGERATOR/FREEZER

More than half (55.42%) of all households have radios; 1.22 percent, television set and 3.34 percent, refrigerator or freezer. Ownership of these three appliances, especially radio is more widespread in the urban areas. Among the urban households, 66.57 percent own a radio; 2.47 percent, television set and 8.24 percent, refrigerator or freezer. The corresponding proportions for the rural households are 53.21 percent, 0.97 percent and 2.37 percent.

### LIST OF UNPUBLISHED TABLES

#### I. POPULATION

Table 11 - Private Household Population By Citizenship, Age Group, Sex and Municipality: 1980

Table 12 - Usual Residence of Mother at Person's Birth and Present Residence of Private Household Population By Age Group, Sex and Municipality, Urban-Rural: 1980

Table 13 - Private Household Population 6 Years Old and Over, Able to Speak Pilipino/Tagalog and English By Age Group and Sex, Urban-Rural: 1980

Table 14 - Private Household Population 6 Years Old and Over Able to Speak Pilipino/Tagalog and English By Sex and Municipality: 1980

Table 15 - Private Household Population 6 Years Old and Over By School Attendance During June 1979 to March 1980, Age Group, Sex and Municipality: 1980

Table 16 - Private Household Population 15 Years Old and Over with College Degree By Specific Degree/Title, Age Group, Sex and Municipality: 1980

Table 17 - Gainful Workers 15 Years Old and Over of Private Households By Major and Minor Occupation Groups, Age Group and Sex: 1980

Table 18 - Gainful Workers 15 Years Old and Over of Private Households By Highest Grade Completed, Major Occupation Group, Sex and Municipality: 1980

Table 19 - Gainful Workers 15 Years Old and Over of Private Households By Major and Minor Industry Groups, Age Group and Sex: 1980

Table 20 - Gainful Workers 15 Years Old and Over of Private Households By Major Occupation Group, Major and Minor Industry Groups, Sex and Municipality, Urban-Rural: 1980

Table 21 - Ever-Married Women 15 Years Old and Over By Number of Children Born Alive, Age Group and Municipality, Urban-Rural: 1980

Table 22 - Ever-Married Women 15 Years Old and Over By Number of Children Born Alive, Highest Grade Completed and Age Group, Urban-Rural: 1980

Table 23 - Ever-Married Women 15 Years Old and Over By Number of Children Living, Age Group and Municipality, Urban-Rural: 1980

Table 24 - Ever-Married Women 15 Years Old and Over By Number of Children Born Alive, Number of Children Living and Municipality, Urban-Rural: 1980

Table 25 - Women 15 Years Old and Over Married Only Once By Age at Marriage, Age as of Last Birthday and Number of Children Born Alive, Urban-Rural: 1980

Table 26 - Women 15 Years Old and Over Married Only Once By Age at Marriage, Age as of Last Birthday and Number of Children Living, Urban-Rural: 1980

#### II. HOUSING

Table 2A - Number of Households in Occupied Dwelling Units By Year Built, Construction Materials of Roof and Outer Walls and Municipality, Urban-Rural: 1980

## Appendix B

**Cat. 2 – Type of Building/House**

1. Single House	6. Other housing unit: natural shelter, boat, etc.
2. Duplex	7. Hotel, lodging house, dormitory, etc.
3. Apartment/Accesoria/Condominium/ Row house/etc.	8. Institutional (hospital, convent, school dormitory, penal institution, etc.)
4. Improvised (barang-barong)	9. Other collective living quarters (refugee camp, logging camp, military camp, etc.)
5. Commercial/Industrial/Agricultural

**HOUSING CENSUS QUESTIONS**

(Encircle Code or Enter Appropriate Code If Required.)

H-1 to H-4 are to be asked only of the first sample household in every building (Repeat entries for other sample households in this building.)

H-1 What type is this building/house?

[22] 1 Single House  
2 Duplex  
3 Apartment/Accessorial/Condominium/Row house/etc.  
4 Improvised (barong-barong)  
5 Commercial/Industrial/Agricultural  
6 Other housing unit: natural shelter, boat, etc.  
7 Hotel, lodging house, dormitory, etc.  
8 Institutional (hospital/convent/school)  
dormitory (penal institution)  
9 Other collective living quarters (refugee camp, logging camp, military camp, etc.)

H-5 and H-6 are to be asked of the sample household in the dwelling unit. (Repeat entries for other sample households in this dwelling unit.)

H-5 How many rooms are in this dwelling unit (excluding bathroom, toilet, store room, passageway)?

[26] 1 Room 6 Rooms  
2 Rooms 7 Rooms  
3 Rooms 8 Rooms  
4 Rooms or more  
5 Rooms

H-5 How many rooms are in this dwelling unit (excluding bathroom, toilet, store room, passageway)?

[29] 1 Owner  
2 Lessee or sublessee  
3 Farm lessee/agricultural tenant of landowner  
4 Other legal tenure  
5 No tenure (squatter, etc.)  
6 Not applicable

H-7 How does this household occupy this dwelling unit?

[28] 1 Owner  
2 Tenant/Lessee  
3 Sub-tenant/sublessee  
4 Rent-free

H-8 (If household owns in this dwelling unit) What is your tenure with respect to the land?

[30] 1 Owner  
2 Lessee or sublessee  
3 Farm lessee/agricultural tenant of landowner  
4 Other legal tenure  
5 No tenure (squatter, etc.)  
6 Not applicable

H-9 What kind of lighting do you use?

[31] 1 Electricity  
2 Kerosene  
3 Liquefied Petroleum Gas (LPG)  
4 Oil (vegetable, animal)  
5 Other

H-10 What is the main source of your water supply -

(Encircle only one for each use)

[32] 1 For Kitchen use?  
2 For Washing Clothes?  
3 For Drinking?  
4 For Toilet use?

H-11 Do you have these appliances in working condition?

[33] 1 a. Radio  
2 b. TV  
3 c. Refrigerator/Freezer  
4 Other

H-12 What kind of toilet facilities do you use?

[34] 1 Water-sealed, sewer/septic tank, used exclusively by household  
2 Water-sealed, sewer/septic tank, shared with other households  
3 Water-sealed, other depository, used exclusively by the household  
4 Water-sealed, other depository, shared with other households  
5 Closed pit (antipolo, etc.)  
6 Open pit  
7 Other (pail system, etc.)  
8 None

Transcribe  
encircled codes  
here.

H-2 What construction material is the roof made of?

[23] 1 Galvanized iron, Aluminum  
2 Tile/Concrete/Brick/Stone  
3 Asbestos  
4 Wood/Plywood  
5 Mixed/Tile/Concrete/Brick/Stone and Wood/Plywood  
6 Asbestos  
7 Bamboo/Sawali  
8 Cogon/Nipa  
9 Makasalit/Salagad Materials  
10 Other (fanahaw, etc.)

H-3 What construction material are the outer walls made of?

[24] 1 Galvanized Iron/Aluminum  
2 Tile/Concrete/Brick/Stone  
3 Wood/Plywood  
4 Mixed/Tile/Concrete/Brick/Stone and Wood/Plywood  
5 Asbestos  
6 Bamboo/Sawali  
7 Cogon/Nipa  
8 Makasalit/Salagad Materials  
9 Other (fanahaw, etc.)

H-4 When was this building/house built?

[25] 1 1980  
2 1979  
3 1978  
4 1977  
5 1976  
6 1971 - 1975  
7 1961 - 1970  
8 1951 - 1960  
9 1942 - 1950  
10 1941 or earlier

H-5 When was this building/house built?

[26] 1 1980  
2 1979  
3 1978  
4 1977  
5 1976  
6 1971 - 1975  
7 1961 - 1970  
8 1951 - 1960  
9 1942 - 1950  
10 1941 or earlier

H-6 When was this building/house built?

[27] 1 1980  
2 1979  
3 1978  
4 1977  
5 1976  
6 1971 - 1975  
7 1961 - 1970  
8 1951 - 1960  
9 1942 - 1950  
10 1941 or earlier

H-7 What is the floor area of this dwelling unit in square meters?

[28] 1 Less than 30 sq. meter  
2 30-49 sq. meters  
3 50-69 sq. meters  
4 70-99 sq. meters  
5 100-149 sq. meters  
6 150-199 sq. meters  
7 200-249 sq. meters  
8 250-299 sq. meters  
9 300 sq. meters & over  
10 Specify: \_\_\_\_\_ sq. m.

H-8 What is the floor area of this dwelling unit in square meters?

[29] 1 Less than 30 sq. meter  
2 30-49 sq. meters  
3 50-69 sq. meters  
4 70-99 sq. meters  
5 100-149 sq. meters  
6 150-199 sq. meters  
7 200-249 sq. meters  
8 250-299 sq. meters  
9 300 sq. meters & over  
10 Specify: \_\_\_\_\_ sq. m.

H-9 What kind of lighting do you use?

[30] 1 Electricity  
2 Kerosene  
3 Liquefied Petroleum Gas (LPG)  
4 Oil (vegetable, animal)  
5 Other

H-10 What is the main source of your water supply -

[31] 1 For Kitchen use?  
2 For Washing Clothes?  
3 For Drinking?  
4 For Toilet use?

H-11 Do you have these appliances in working condition?

[32] 1 a. Radio  
2 b. TV  
3 c. Refrigerator/Freezer  
4 Other

H-12 What kind of toilet facilities do you use?

[33] 1 Water-sealed, sewer/septic tank, used exclusively by household  
2 Water-sealed, sewer/septic tank, shared with other households  
3 Water-sealed, other depository, used exclusively by the household  
4 Water-sealed, other depository, shared with other households  
5 Closed pit (antipolo, etc.)  
6 Open pit  
7 Other (pail system, etc.)  
8 None

H-13 Do you have these appliances in working condition?

[34] 1 a. Radio  
2 b. TV  
3 c. Refrigerator/Freezer  
4 Other

H-14 When was this building/house built?

[35] 1 1980  
2 1979  
3 1978  
4 1977  
5 1976  
6 1971 - 1975  
7 1961 - 1970  
8 1951 - 1960  
9 1942 - 1950  
10 1941 or earlier

H-15 When was this building/house built?

[36] 1 1980  
2 1979  
3 1978  
4 1977

**PERSONS TO BE ENUMERATED AS MEMBERS OF COLLECTIVE HOUSEHOLDS**

**1. HOTELS, LODGING HOUSES, DORMITORIES, ETC.**

- a. Proprietor, manager and employees living in the establishment, except those living therein with their own families and those who usually go home to their respective families at least once a week.
- b. Permanent lodgers/boarders (those who have stayed or expect to stay for one year or longer) and those temporary lodgers/boarders who have stayed for six months or longer as of May 1, 1980 or have been away from their own families for the same period. However, exclude those who usually go home at least once a week.
- c. Lodgers/boarders who are not residents of the Philippines and who have been in the Philippines for one year or longer as of May 1, 1980, or expect to stay in the Philippines for one year or longer. However, exclude those who have temporary place of residence elsewhere in the Philippines to where they usually go home. Exclude also diplomatic representatives or UN, ILO or USAID officials who, like diplomatic representatives, are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families.

**2. HOSPITALS AND NURSES' HOMES**

- a. All patients, including those just confined, in mental hospitals, leprosaria or leper colonies, pavilions of tuberculosis sanatoria where patients stay more or less permanently, and rehabilitation centers for drug addicts.
- b. Patients who have been confined for six months or longer as of May 1, 1980 in other kinds of hospitals and in wards for temporary confinement in tuberculosis sanatoria.
- c. Nurses in nurses' homes who do not usually go home at least once a week.
- d. Staff members and employees living in hospitals/nurses' homes, except those living therein with their families and those who usually go home at least once a week.

**3. WELFARE INSTITUTIONS (Homes for the Aged and Infirm, Orphanage, Boys' Town, etc.)**

- a. All inmates or wards, including those just confined.
- b. Staff members and employees living in the institutions, except those living therein with their families and those who usually go home at least once a week.

**4. CORRECTIVE AND PENAL INSTITUTIONS**

- a. All prisoners in national prisons and reformatories (welfareville).
- b. Prisoners and detainees in provincial or city/municipal jails who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980, or those whose sentence is for six months or longer even if the sentence is on appeal.
- c. Staff members and employees living in the institutions except those living therein with their own families and those who usually go home at least once a week.

**5. CONVENTS, NUNNERIES, SEMINARIES, AND BOARDING SCHOOLS**

- a. Monks, priests, ministers, nuns, seminarians etc. However, priests or ministers of sects other than the Roman Catholic Church who live in the convent or house close to church or chapel with their own families are to be excluded (private households).
- b. Students in boarding schools (schools where students are required to stay in the school campus).
- c. Staff members, employees and helpers living in the premises, except those living therein with their own families and those who usually go home at least once a week.

**6. MILITARY CAMPS AND STATIONS (PC, Army, Air Force and Navy): PMA**

- a. Officers and enlisted men/draftees except those who live in the premises with their own families and those who usually sleep most nights with private households or in hotels, lodging places or dormitories. Include those belonging to the unit in the camp or station who are away on military operation or mission or aboard naval vessels, except those whose families are living in the camp or station (*their own families will report them*).
- b. PMA cadets and trainees whose training is for six months or longer.
- c. Detainees who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980.
- d. Civilian employees living in the camp or station, except those living therein with their own families and those who usually go home at least once a week.

**7. LOGGING, MINING AND CONSTRUCTION/PUBLIC WORKS CAMPS; PLANTATIONS AND AGRICULTURAL/FISHERIES EXPERIMENTAL OR BREEDING STATIONS, ETC.**

- a. Proprietor, manager, contractor and employees who do not live with their families in the premises and are supplied lodging (beddings, etc.) and/or meals by the company, firm, contractor or agency, except those who usually go home at least once a week.

**8. OCEAN-GOING AND INTERISLAND/COASTAL VESSELS OR DEEP-SEA FISHING VESSELS**

- a. Filipino crew members of ocean-going vessels (*whose own families live in the Philippines*) at port as of 12:01 A.M. May 1, 1980, except those who usually go home to their own families in the Philippines at least once every six months.
- b. Any crew member of interisland/coastal vessel or deep-sea fishing vessel at port on any day *during the enumeration*, if the crew member has no home other than the vessel.

**9. REFUGEE CAMPS**

- a. Filipino citizens working and living inside the camps.
